

ABOUT US

Partners for Pediatric Vision provides a critical link between healthcare, education and support services for families of children with visual impairment to ensure all children have the chance to thrive.

PARTNERS FOR PEDIATRIC VISION

is a non-profit organization that receives funding from private foundations, corporate grants and individual donations.

Keeping Kids in Sight

Contact us for information

Our Vision Educators have expertise in assessing the unique learning needs of babies, young children and teens with visual impairment. We provide parent education and support after a child's pediatric eye exam in order to help families understand their child's visual diagnosis and to assist each child with adaptations for their vision loss. Ongoing information and guidance is provided through telephone support to answer questions and connect families to the resources they need.

OUR MISSION

The mission of Partners for Pediatric Vision is to turn possibilities into achievements for children with visual impairment and their families.

"I was referred to your team and everyone at Partners for Pediatric Vision has been an absolute pleasure to work with. Our Vision Educator has been so amazing by providing us with her knowledge and resources over the years. She has been very supportive and in fact, she's like family. I could not ask for a better organization." - Fernanda, Mother of Mason

"I would like to share how as a parent with no guidance, I was given hope not only with emotional support but with numerous resources to support Emily's journey. I feel that you are passionate human beings that are dedicated to not just helping families with resources, but you are truly devoted to reaching out and touching hearts." - Sandra, Mother of Emily
